Landscape Deposit

Did you complete landscaping this year?

If your house was built in 2023 the summer of 2026 will represent your last opportunity to take advantage of the Homeowners Landscape Deposit.

The landscape deposit is refundable within 3 years of the date of the permit approval.

This is a minimum landscaping deposit- all of the front, back and side yards must have the bare ground covered with either grass or landscape material to prevent water erosion, blowing sand, or the unsightliness of weeds. No other landscape features are required to qualify for the rebate, though we love to see fences, flowers, trees, bushes, water, boulders and anything else your imagination can provide. The Town appreciates all those residents who take pride in their yards and make them beautiful! Please note that your landscaping may not change the lot levels in any way that will have a negative effect on your neighbours' properties or on public lands.

When you are ready, send pictures of your yard from every perimeter to permits@pilotbutte.ca. I will make an appointment to come out and view the finished yard. Inspections are usually on Thursday afternoons. The Town will send a cheque in the amount of \$1,000 after the Council Meeting next following the inspection providing all requirements are met.

September Update

Griffin Football

The Griffin Football Team is more than a team in our school, but also a community. During the Griffin's third league game one of the year, a player was seriously injured and has been receiving treatment for his injuries in a Regina hospital since that time. The outpouring of support for him and his family has been incredibly heartwarming. The picture featured was taken at the QCM where one of our student's Angelica Linklater ran in his honour to promote the GoFundMe page to support the Gronick family during this difficult time. There are several other fundraising efforts being organized within the community. Please call the school if you would like any updates on these fundraising initiatives as they develop. Thank you everyone for your support both to the players and coaches, but also the Gronick family during this time.

UPCOMING DATES:

- Sept. 29- Orange Shirt Day
- Sept. 30- No School
- Oct. 5th "A Walk to Remember"
- Oct. 9th -Leibel Field- Griffin Football
- Oct. 13th - No School

GreenALL Equity Club

The Greenall Equity Club participated in the YWCA fundraising event "Walk a Mile in Their Shoes", which raises awareness about gender-based violence. Great job, Griffins, on continuing to build your involvement!

Treaty 4 History & Law

Over 100 students in our History and Law 30 classes attended Treaty 4 this year to learn about natural law and the history of the relationship between settlers and treaty negotiators and signers. They participated in games and simulations, met Elders, spoke with representatives from various police agencies, and watched a powwow demonstration, with many students joining in the Round Dance. The group enjoyed bannock burgers and spent the day learning outside on the land, deepening their understanding of Treaty 4 and the ongoing relationships that shape our communities.

Remember when Pilot Butte looked a little... different?

Pilot Butte has a whole lot of history hiding in family photo albums, shoeboxes and even on old hard drives. The White Butte Museum is looking for historical photographs to help us tell the story of our community and bring the past to life.

We're especially interested in photos that show:

Homes, buildings and businesses, families and community life, community events, the landscape, work and life in the area

The Cost of Doing Nothing.

May Be Greater Than You Think.

When it comes to managing money, many people believe the safest decision is to avoid risk altogether. Leaving savings in a bank account or holding everything in cash feels comfortable because the balance never appears to decline.

3%

Assumed
Annual Inflation

\$1,500

Purchasing Power
Lost on \$50,000

But there's another risk that often goes unnoticed: the cost of doing nothing.

Financial professionals refer to this as opportunity cost, the value of what you give up by choosing one option over another. While a Guaranteed Investment Certificate (GIC) may offer modest growth and help offset some inflation, leaving money entirely idle can quietly reduce your purchasing power year after year.

Consider this hypothetical example. If you leave \$50,000 in cash while inflation averages 3%, your account balance may still show \$50,000 twelve months later. However, the purchasing power of that money has effectively declined by approximately \$1,500. There isn't a withdrawal on your bank statement, but your money now buys fewer groceries, less fuel, and fewer everyday necessities than it did a year ago.

Why do many people choose this path?

Behavioural economists have identified a tendency known as status quo bias, our natural preference to leave things exactly as they are, even when change may lead to a better outcome. In investing, this often results in avoiding decisions because they feel uncertain, even if doing nothing creates a predictable loss over time.

This doesn't mean everyone should pursue higher-risk investments. Every financial decision should reflect your goals, time horizon, cash flow needs, and tolerance for risk.

The important lesson is that preserving wealth isn't just about avoiding market declines. It's also about protecting your purchasing power and ensuring your money continues to work toward your future goals. Sometimes the greatest financial risk isn't making the wrong investment decision.

It's never making one at all.
