## COUNCIL CONNECTION

Council meetings are open to the public. Meetings are normally held the 2nd and 4th Monday of each month. If a Statutory Holiday falls on a regularly scheduled Council meeting Monday, the Council meeting will be held on the Tuesday. Unscheduled Special Meetings are advertised in advance for public attendance.

The Council meetings for 2026 are as follows:

January 12 & 26	February 9 & 23	March 9 & 23	April 6 & 27
May 11 & 25	June 8 & 22	July 13 & 27	August 10 & 24
September 14 & 28	October 13 & 26	November 9 & 23	December 14 & 28

Council also holds Administration meetings on the 1st and 3rd Wednesday of the month. These meetings are for discussion only, no resolutions are made.

Please contact the Town Office at 306-781-4547 if you have any questions in regard to attending a council Meeting.

## UPDATES & INFORMATION

### 2026 CENSUS

2026 is a Census of Population year. Invitation letters will be sent in early May requesting Canadian households to complete the questionnaire online. Completing the census helps ensure your community receives its fair share. Municipalities receive annual Municipal Revenue Sharing Grant from the Province of Saskatchewan using calculation based on census populations. Your response helps ensure our community receives the funding, services, and infrastructure it needs.

Every resident counted brings dollars to our community.

### PILOT BUTTE SHOWCASE

The Pilot Butte Town Council is hosting a Pilot Butte Showcase on February 5, 2026, to highlight our community and attract potential future residents, businesses, and investors, supporting continued growth and expansion. This event provides attendees with an opportunity to learn about our community, discover how they can become part of it, and explore future growth opportunities.

### PROPERTY ASSESSMENTS

Property Assessment begins in February with SAMA (Saskatchewan Assessment Management Agency) assessing properties throughout Town that have recently had permits with work completed, or currently have open permits.

### BUILDING PERMITS

A building permit is required when any structural change or alteration is made to an existing building, or when any new construction is undertaken. This includes but not limited to: Basement development, decks, detached garage, sheds over 100sq ft, swimming pool, etc.

Your Elected Council Members for 2024-2028 who represent your interests are:

Mayor Peggy Chorney, along with Councillors Scott Einarson, Zac Forster, Noreen Lolacher-Lang, Lydia Riopka, Ed Sigmeth & Don Turner.

# Important dates/Upcoming

## Closed on Monday February 16th

The Town Office and Recreation Office will be closed on Monday February 16th, 2026 for Family Day.

Regular business hours will resume on Tuesday February 17th.

Join us at the Family Day Community Event at the Recreation Center & Inland Park for a day of fun family activities!

## 2026 Census

**Help our community get the services and funding it needs.**

In early May 2026, an invitation letter will be sent to most Canadian households, with the exception of select northern and remote areas of the country, where collection begins in February 2026. Completing the 2026 Census helps shape the future of our community.

Census data is used by local and provincial governments, community organizations, and businesses to make informed decisions about things like:

- Schools and daycares
- Emergency services (fire, police, and medical)
- Roads and public transit
- Health care, education, and employment services

**Be counted  
in the 2026 Census.**

## View your Tax & Utility notices & balances online!

In February 2024, The Town implemented a new program for e-notices for taxes & utilities. Notifications of new notices available are sent by email, with a link to sign in to a secure website to view your current notice, payment receipts, utility and tax notices, as well as previous notices and current balances!

## Drinking Water Quality and Compliance

The Water Security Agency and the Ministry of Environment requires that at least once each year waterworks owners provide notification to consumers of the quality of water produced and supplied as well as information on the performance of the waterworks in submitting samples as required by a Minister's Order or Permit to Operate a waterworks. The following is a summary of the **Town of Pilot Butte's** water quality and sample submission compliance record for the **year of 2025**. This report was completed on **16-Jan-2026**. Readers should refer to Water Security Agency's "Municipal Drinking Water Quality Monitoring Guidelines, June 2015, EPB 502" for more information on minimum sample submission requirements. Permit requirements for a specific waterworks may require more sampling than outlined in the department's monitoring guidelines. If consumers need more information on the nature and significance of specific water tests, for example, "what is the significance of selenium in a water supply", more detailed information is available from: [http://www.hc-sc.gc.ca/ewh-semt/pubs/water-eau/index\\_e.html](http://www.hc-sc.gc.ca/ewh-semt/pubs/water-eau/index_e.html).

### Water Quality Standards

#### Bacteriological Quality

Parameter/Location	Limit	Regular Samples Required	Regular Samples Submitted	# of Positive Regular Submitted (Percentage)
Total Coliform	0 Organisms/100 mg/L	52	52	0
E. coli	0 Organisms/100 ml	52	52	0
Background Bacteria	Less than 200 Organisms/100 mL	52	52	0

The owner/operator is responsible to ensure that 100 per cent of all bacteriological samples are submitted as required. All waterworks are required to submit samples for bacteriological water quality; the frequency of monitoring depends on the population served by the waterworks.

### Water Disinfection

#### Chlorine Residual in Distribution System for Test Results Submitted with Bacteriological Samples

Parameter	Minimum Limit (mg/L)	Free Chlorine Residual Range	Total Chlorine Residual Range	# Tests Required	# Tests Submitted	# Adequate Chlorine (Percentage)
Chlorine Residual	0.1 mg/L free OR 0.5 mg/L total	0.32 - 0.93	0.35 - 1.00	52	52	52 (100%)

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual OR 0.5 mg/L total chlorine residual is required at all times throughout the distribution system unless otherwise approved. A proper chlorine submission is defined as a bacteriological sample submission form with both the free and total chlorine residual fields filled out. An adequate chlorine is a result that indicates that the chlorine level is above the regulated minimums. An adequate chlorine may be counted even if the chlorine results were submitted incorrectly. A waterworks is required to submit chlorine residual test results on every bacteriological sample they submit.

### Water Disinfection

#### Free Chlorine Residual for Water Entering Distribution System from Waterworks Records-From Water Treatment Plant Records

Parameter	Limit (mg/L)	Test Level Range	# Tests Performed	# Tests Not Meeting Requirements
Free Chlorine Residual	at least 0.1	0.20 - 1.00	365	0

A minimum of 0.1 milligrams per litre (mg/L) free chlorine residual is required for water entering the distribution system. Tests are normally performed on a daily basis by the waterworks operator and are to be recorded in operation records. This data includes the number of free chlorine residual tests performed, the overall range of free chlorine residual (highest and lowest recorded values) and the number of tests and percentage of results not meeting the minimum requirement of 0.1 mg/L free chlorine residual.

### Turbidity – From Water Treatment Plant Records

Parameter	Limit (NTU)	Test Level Range	# Tests Not Meeting Requirements	Maximum Turbidity (NTU)	# Tests Required	# Tests Performed
Turbidity	1.0	0.00 - 0.16	0	0.17	730	728

Turbidity is a measure of water treatment efficiency. Turbidity measures the "clarity" of the drinking water and is generally reported in Nephelometric Turbidity Units (NTU). All waterworks are required to monitor turbidity at the water treatment plant. The frequency of measurement varies from daily for small systems to continuous for larger waterworks.

### Chemical – Health Category

Parameter	Limit MAC (mg/L)	Limit IMAC (mg/L)	Sample Results	# Samples Exceeding MAC/IMAC	# Samples Required	# Samples Submitted
Arsenic	0.010		0.0008	0	0	1
Barium	1.0		0.0007	0	0	1
Boron		5.0	0.1	0	0	1
Cadmium	0.005		<0.00015	0	0	1
Chromium	0.05		<0.00019	0	0	1
Fluoride (avg.*)	1.5		<0.05	0	0	1
Lead	0.01		0.00007	0	0	1
Nitrate (avg.*)	45.0		<0.2	0	0	1
Selenium	0.01		<0.00113	0	0	1
Uranium	0.02		0.00011	0	0	1

Substances within the chemical health category may be naturally occurring in drinking water sources or may be the result of human activities. These substances may represent a long-term health risk if the Maximum Acceptable Concentration (MAC) or Interim Maximum Acceptable Concentration (IMAC) is exceeded. All drinking water supplies are required to monitor for substances in the Chemical-Health category, the frequency of monitoring depends on the population served by the waterworks. Some waterworks will add fluoride to drinking water as a means to aid in the prevention of dental decay.

#### General Chemical

Parameter	Aesthetic Objectives* (mg/L)	Sample Results (average)	# Samples Required	# Samples Submitted
Alkalinity	500	21.3	1	1
Bicarbonate	No Objective	26	1	1
Calcium	No Objective	<1	1	1
Carbonate	No Objective	0	1	1
Chloride	250	0.9	1	1
Conductivity	No Objective	42	1	1
Hardness	800	7	1	1
Magnesium	200	1	1	1
PH	No Objective	7.5	1	1
Sodium	300	9	1	1
Sulphate	500	0.9	1	1
Total dissolved solids	1500	40	1	1

All waterworks serving less than 5000 persons are required to submit water samples for SE's General Chemical category once every two years if a ground water source or once per three months every second year if a surface water or blended surface/groundwater source. The General Chemical category includes analysis for alkalinity, bicarbonate, calcium, carbonate, chloride, conductivity, hardness (as CaCO<sub>3</sub>), magnesium, sodium, sulphate and total dissolved solids.

The last sample for General Chemical analysis was submitted on 3-Feb-2025. Sample results indicated that there were no exceedences of the provincial aesthetic objectives for the General Chemical category.

\*Objectives apply to certain characteristics of or substances found in water for human consumptive or hygienic use. The presence of these substances will affect the acceptance of water by consumers and/or interfere with the practice of supplying good quality water. Compliance with drinking water aesthetic objectives is not mandatory as these objectives are in the range where they do not constitute a health hazards. The aesthetic objectives for several parameters (including hardness as CaCO<sub>3</sub>, magnesium, sodium and total dissolved solids) consider regional differences in drinking water sources and quality.

More information on water quality and sample submission performance may be obtained from:

# Golden Sunset Club

The Golden Sunset Club (at the north-east end of the Town of Pilot Butte and rink complex) is open every Tuesday and Thursday from 1-4 PM. We play various card games and always stop for coffee (\$1 per person), snacks and a visit. Any Pilot Butte seniors are welcome to join us. It is a great way to meet new friends and learn about the Golden Sunset Club activities.

Bunco afternoon at the club will be February 13 & 27 from 1 to 3:30 PM. The cost is \$2 for prizes and \$1 for coffee. All seniors are welcome.

The Golden Sunset Club has a variety of regular activities and new activities are in the works. New members are always welcome.

The Club offers a soup and sandwich lunch on the first Tuesday of every month at noon (come a little early). The cost is \$10 per person and includes a choice of soup, sandwiches, lots of desserts, and tea and coffee. After lunch you are invited to stay and play cards, make new friends and reconnect with old ones.

The club hosts a cribbage tournament on the 3rd Saturday of most months. For more information contact Neil Veroba at 306-571-2702.

If you are looking for a convenient facility to rent for a shower, birthday party, family gathering, crafts, exercise class or other events, our club is available. Contact Lynette Nagy at 306-539-8281 or Mary Ross at 306-539-5187 for rates, availability and other information.

## SPIRIT OF THE BEAR AWARD DECEMBER VALUE - SELF CONTROL

Each month, teachers nominate one student from each classroom who go above and beyond to demonstrate our monthly value.

In DECEMBER, our Bears focused on the value Self Control.

The affirmation we practiced was:

"I am in control of my thoughts, actions and emotions."

We are very proud of these BEARS for demonstrating incredible self-control through this very busy and chaotic month! They showed great patience and focus, and held it all together even when it might have been challenging. Congratulations to all of December's recipients!

## January Update

Please join us for...

**Arts Showcase and Band Concert Winter Edition is Wednesday, January 21st @ 7PM**

### Equity

Students in Grades 9–12 recently participated in an inspiring drama workshop, Acting Up: Enhancing Allyship and Addressing Racism, sponsored by the RCMP Heritage Centre. Through engaging performances and thoughtful discussions, participants explored the importance of equity and discovered how to become allies and agents of change in their communities. A big thank-you to these students for volunteering their time to learn and lead by example—if you're passionate about making a difference, consider joining our next Equity meeting to help create positive social change

### Griffin Drama

Griffin Drama is gearing up for their submission to the Sask Drama Region 5 One Acts Festival. This year, we are working on a production called "Queens". It is about Henry the 8th and the revenge of his six wives. There will be 23 students performing and a large production group designing set, costumes, choreography & props. Our local show will be on April 16th at 7 pm at Greenall.

Sask Drama Region 5 One Acts Festival will be at Greenall High School on April 17th & 18th – times are still TBA.

### Upcoming Dates

- Jan. 26-30  
Final Exams
- Feb. 2-  
Semester 2  
Starts

### Law 30

Both Law 30 classes prepared and delivered criminal cases to a packed audience in the library and argued their sides, as Crown prosecutors or as Defence, in front of a jury of their peers. Through this hands-on learning experience, students demonstrated strong critical thinking, persuasive speaking, and effective collaboration under pressure. Their teamwork and courtroom confidence made for an unforgettable demonstration of skill, and emotions ran high as the verdicts were delivered!

## **Inflation & Your Retirement Plan** *The Silent Pressure Test*

Choose one regular monthly expense and ask, "What would this cost if prices doubled over time?" That single exercise often changes how people view growth, income, and long-term planning.

**Inflation is not something to fear. It is something to plan for.**

If reviewing how inflation fits into your retirement strategy would be helpful, Yeorgo Traiforos at DNY Financial Services in Pilot Butte is available for a conversation. Taking time to look at this today can help clarify the years ahead.

Inflation rarely feels urgent. It doesn't arrive with a bill labelled "inflation cost," nor does it show up as a sudden crisis. Instead, it works quietly in the background, year after year, subtly reducing what your money can actually do. For many working Canadians between 30 and 70, this creates a hidden risk.

A retirement plan can look solid today, balanced, conservative, even comfortable - yet still fall short later if inflation isn't properly accounted for. Most people plan in dollars. Inflation forces us to plan for purchasing power. That difference matters more than many realize.

Consider this: If inflation averages just **2 to 3 percent a year**, which has been consistent over long periods according to Statistics Canada, the cost of living roughly doubles over a typical retirement. That means a lifestyle costing **\$4,000** a month today could require closer to **\$8,000** in the future to feel the same. Nothing extravagant, just the same groceries, utilities, insurance, transportation, and everyday comfort.

In Saskatchewan, we often benefit from lower housing costs compared to major urban centres. That's a real strength. But even with a paid-off home, other costs continue to rise. Property taxes, heating, food, vehicle expenses, and healthcare do not stay still. Inflation quietly pressure-tests every assumption in a retirement plan. Income that doesn't grow may feel stable at first, then gradually become restrictive.

**Without growth built into the plan, inflation doesn't need to be dramatic to be damaging.** It only needs time. This is where planning with an inflation lens becomes essential.

The goal is not aggressive investing or chasing returns. **The goal is resilience. Long-term growth, thoughtfully diversified across assets and strategies, is what helps protect purchasing power over decades.**

This is the philosophy behind the Optimize approach: portfolios designed to balance stability with growth so plans can adapt as the cost of living changes.

# Better Healthcare Change the Model, Change the Outcome

*The difference isn't in resources — it's in design.*

Nothing changes except the model: the same doctor, the same patient, an ECG machine, and an operator. Yet the outcome — for the patient, the doctor, and the healthcare system — is completely transformed.

## Scenario 1: The Current Primary Care Model

### Patient Experience

- A man experiences chest tightness and visits his family doctor.
- The doctor assesses him and writes a requisition for an ECG.
- The patient travels across town to a diagnostic centre and waits in line for testing.
- Once complete, the results are sent back to the doctor's office.
- The patient then books a follow-up appointment, often one to two weeks later, to review the results.

A *Clinical Paramedic* could operate within Saskatchewan's existing Community Paramedic protocols — an experienced paramedic who can no longer manage the rigours of road work, but remains fully competent in-patient assessment and diagnostics such as ECGs under physician direction.

## Scenario 2: The MedAdvocacy™<sup>1</sup> Clinical Paramedic Model

### Patient Experience

- The same man experiences chest tightness and visits his doctor's clinic.
- He is greeted by a **Clinical Paramedic** who takes his history, vital signs, and immediately performs an ECG in the clinic.
- The results are handed directly to the doctor, who reviews them with the patient on the spot.
- Any necessary treatment or referral happens immediately — before the patient leaves.
- This transaction could be measured in minutes, not weeks.
- Scan the QR code to find it on Amazon (about \$10) and discover how we can rebuild healthcare **with no new money, no new legislation, and no new people — just a better design.**

<sup>1</sup> **MedAdvocacy Alliance™** is the operating name of QPTA MedAdvocacy Alliance Inc., a corporation duly incorporated under *The Business Corporations Act* (Saskatchewan).

**No New Money. No New Legislation. No New People.** The **MedAdvocacy™ Model** comes directly from our book, *A Clinic That Breathes – Book 1, Chapter 11*, written as a story about fixing healthcare using what already exists. **If you believe this approach makes sense for your community, tell your MLA it's time to change the model.**
